REAL ESTATE

Murat Arabaci

New Plan manager

former Concept employee

New Plan Learning

acts as the non-profit umbrella organization for Breeze and several other wholly owned subsidiaries.

Breeze Inc

acquires properties
for Concept Schools

NPL buys, renovates, leases, and sometimes sells
properties to Concept-managed schools.

New Plan Learning claims it operates as a supporting organization to its Concept school tenants, but in reality, it buys properties that it then rents to the schools at egregiously high lease rates. This model allows the Gülen Organization to acquire property **which it pays for with public tax dollars.**

FINANCIAL ABUSE

A review of annual audits revealed the extensive amounts Gateway paid in rent to **New Plan Learning**, the Gülenist-controlled real estate arm of Concept Schools. Furthermore, the audits also revealed that Gateway's tax-exempt status was in jeopardy due to its repeated failure to file mandatory IRS tax documentation for its first three years of operation.

**Gateway Science
Academy**

New Plan Learning

Because Gateway uses the same vendors implicated in the **FBI investigation** and identified by Concept whistleblowers as fraudulent, a forensic accounting, which examines specific payouts to vendors in comparison to goods and services actually received would likely reveal the same pattern of purposeful overcharging and underperformance endemic across the Midwestern region and the Gülen Organization.
